1

A woman with dark hair tied back, wearing a white patterned blouse, is standing in a clothing store. She is smiling while talking on a grey smartphone held to her ear. Her other hand is on the keyboard of a silver laptop, which is open on a green metal counter. The background shows racks of various clothing items, including jackets and trousers, and shelves with folded clothes. A large white number '1' is overlaid on the left side of the image.

Daily Store Opening Checklist

Daily store opening checklist

A mobile enabled daily checklist with reminders for the store manager to ensure that the store is fully equipped to handle customers.

Sample process flow. Create your own.

Store Managers receive daily reminders at a pre-defined time

They walk through the store and update checklist through tablet/mobile or PC, attaching pictures where asked

Leaders get real-time visibility into customer readiness status across store and pre-collated data to enable analysis and insights

Benefits

Drive compliance From no visibility to real-time visibility with 95% + stores doing store walk every morning	95% Compliance
Store issue resolution From 6 days average to 1.5 days average	3X Faster
Implement SOPs 30 minutes less in back offices with more time on shop floor	10% More time on floor

Salient features

- Mobile enabled for shop floor productivity
- Date/time stamped photos for authenticity
- Realtime reports for visibility & tracking

Sample processes you could build on **wooqer**

A woman with blonde hair in a braid, wearing glasses and a yellow sleeveless top, is standing in a clothing store. She is holding a tablet in her left hand and reaching out with her right hand to touch a piece of clothing on a rack. The store has wooden shelves and racks filled with various garments, including a camouflage shirt on a mannequin to the right.

Sales Reporting with KPI Tracker

Sales reporting with KPI tracker

A mobile enabled report tracking sales target vs actuals, along with underlying retail metrics

Sample process flow. Create your own.

Bulk upload of targets

Sales numbers reported by store, uploaded through a bulk upload (integration possible)

Achievement percentage and retail metrics get auto-calculated at time of data submission

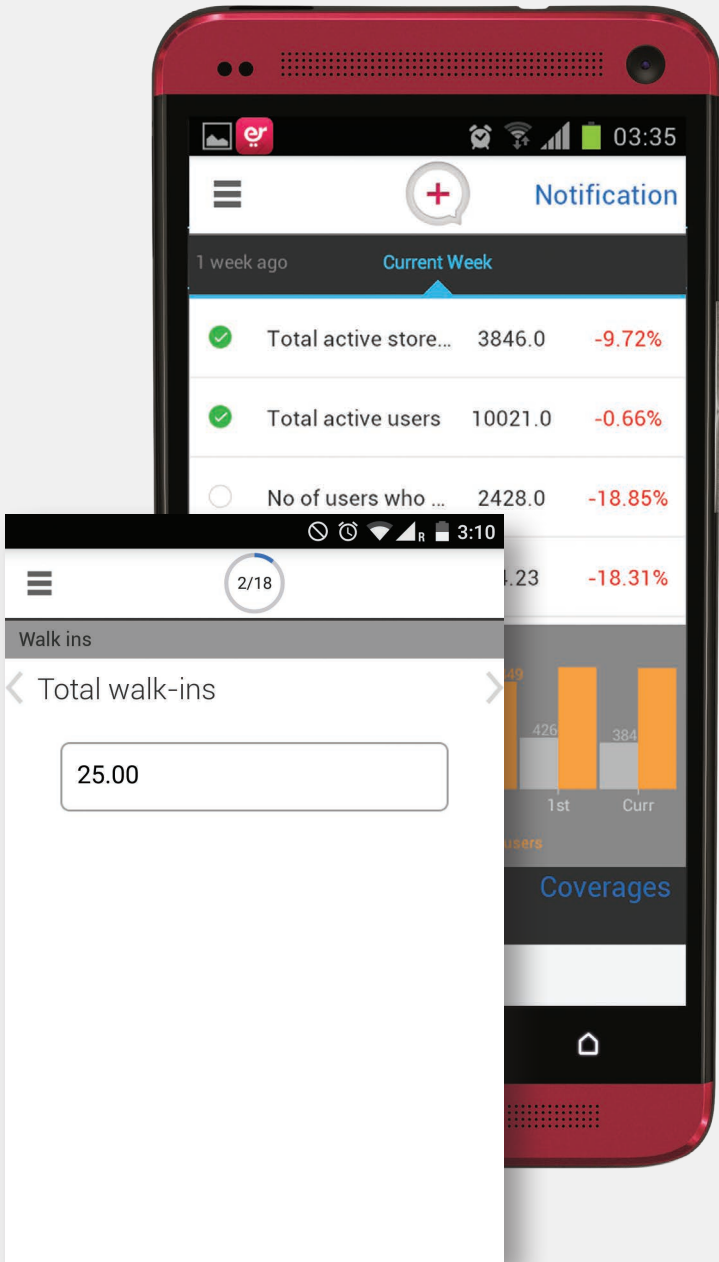

Real-time reports available on mobile with ability to see like to like, YTD, MTD etc

Benefits	
Targets assignment & visibility From 10 days to 1 day to communicate targets (bottoms up or top down)	90% Faster
Target vs actual reporting No manual submissions / No manual report extraction / report generation	80% Less effort
Performance tracking From once a month or once a week to daily	6X Frequency

- Salient features**
- Mobile enabled for anywhere access & action
 - Automated YTD, MTD, WTD, LTL analytics reduce effort
 - Easy & quick data transfer with APIs/excel uploads

Sample processes you could build on **wooqer**

7

Customer
Feedback/NPS

Customer feedback/NPS

Capture customer feedback by using a QR code led or e-mail driven customer feedback form

Sample process flow. Create your own.

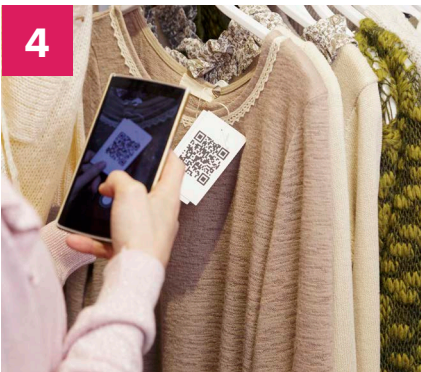

Setup customer feedback form

Create QR code

Display QR code at stores

Customers scan QR code and give feedback

Get NPS scores/feedback for all stores

Benefits

Feedback Capture without infrastructure
Enable QR Code based feedback without needing hardware at store

NIL
Hardware cost

Real-time response (Reduce loss of sale)
5% increase in ATV on return visits with timely feedback redressal

20%
Return visits

Engage all Customers
100% stores covered from Day1.
No budget constrained phasing out

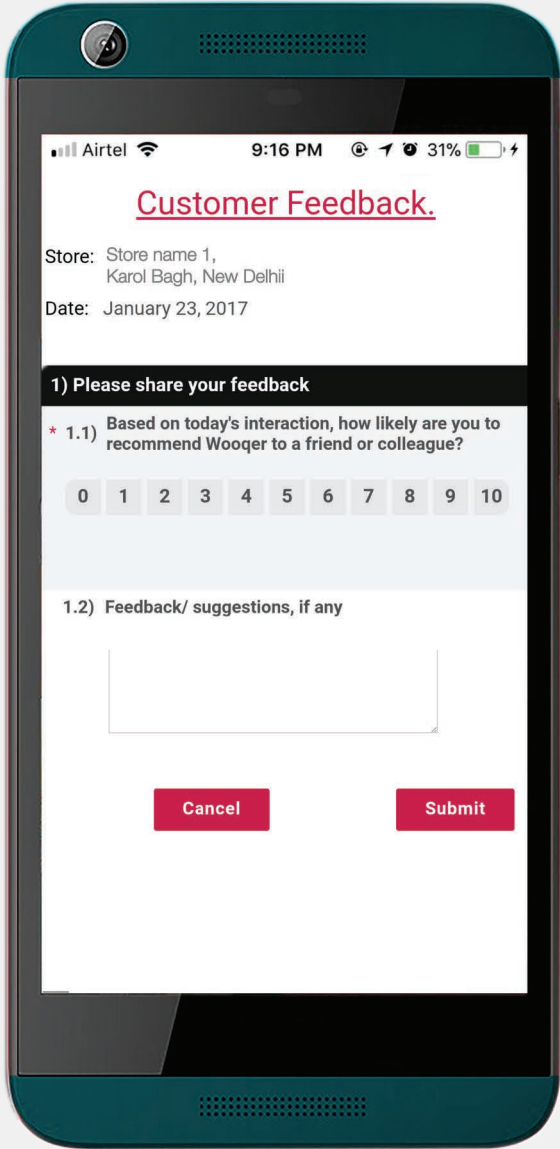

100%
Coverage

Salient features

- QR code & mobile enabled, zero infrastructure costs
- Milestone based escalations for responsiveness
- NPS scorecard builds accountability

Sample processes you could build on **wooqer**

**New Product
Launch**

New product launch

A cross-functional collaboration process to ensure that new product launches happen in time with all staff at store equipped to sell.

Sample process flow. Create your own.

1 Product docket released to all with questions to assess understanding

2 Launch checklist released to stores to report readiness (Training, material receipt, VM/Marketing collateral setup)

3 Stores send back status with pics

4 New product launch lead gets real-time report with readiness status across stores. This is a representative flow and can be easily modified

Benefits	
Product Launch From layered launch through levels to reach to 100% employees instantly	60% Faster
Product Training & Assessment From training only store managers to training/assessing all employees	100% Coverage
Product Feedback Survey Insights on product enabling interventions and effective planning	2X Insights

- Salient features**
- Mobile enabled for anywhere access to product info
 - Audio-visual content enhances learning effectiveness
 - Reports to measure store/staff readiness

Sample processes you could build on **woolworths**
