STORE HOUSEKEEPING WORKAPP

Ensure that the workplace is well organized, hygienic, and safe for employees and customers

WHY SHOULD YOU USE THIS WORKAPP?

Small things can make a big difference. And this Mobile-enabled Store Housekeeping WorkApp helps you ensure that the small things that make a large difference to your employee and customer experience are never missed.

With the Store Housekeeping WorkApp, the store housekeeping team and/ or the Store Management team can ensure that all the basic housekeeping tasks get done, are checked, and get reported every single day, with no misses. Issues if any get reported and Contextual tasks for corrective action get assigned to the right stakeholders directly from the app without delays or misses.

Automated data aggregation and reporting across levels provides visibility into housekeeping readiness across stores every day.

Automated reminders reduce mundane but necessary follow-up efforts while building accountability. The Notification framework helps bring timely attention to misses.
