FAQs

Can I customize the WorkApp?
Yes, a whole lot of customizations are possible, ranging from the periodicity, sections, subsections, fields, name of the WorkApp, your personalized branding, workflow mapping and much more. Talk to Sales for specifics.

What insights does this WorkApp enable?
With this WorkApp you can :
- Know which locations or teams need assistance today
- Get insights to improve the Standard Operating Processes (SOPs)
- Identify training needs and plan interventions

What IT infrastructure or IT team involvement do I need to use this WorkApp?
All you need is the devices where your users can use Wooqer and internet connectivity in form of Mobile data, Wifi or Broadband connection. The App works on both iOS and Android devices. No IT team involvement is needed except to whitelist the Wooqer IP and mails from Wooqer where firewalls may block such access.

visibility	lesser effort	compliance

Where is the data stored? Who owns it and how does Wooqer ensure data security?
Your data (including images) submitted on the App are owned entirely by you and Wooqer claims no ownership of your data. We do not access or use your data in any form except basic industry benchmarking or towards support requested by you. The data is stored on the cloud on Wooqer servers and is absolutely secure. We undergo stringent security procedures and audits to ensure that your data is never at risk.

What are the integration possibilities available with the WorkApp?
The WorkApp can integrate with any other tools using available APIs. With these APIs, data from another system can be brought into the WorkApp and data from the WorkApp can be taken to other systems

What does it take to get started?
You can be up and running with this WorkApp within 4 hours! All you need to do is to
-    Customize the WorkApp if needed, set reminders/ notifications and activate WorkApp
-    Upload your store and user list on Wooqer and invite user to use the WorkApp.
-   Start tracking reports

About Wooqer

Wooqer is an App for Ops that brings you ready to use WorkApps through the Wooqer Marketplace. Wooqer WorkApps have been built in partnership with industry experts and give you a headstart not just in your digitization journey but also in your process definition or improvement efforts. All Apps can be quickly and easily customized without any IT or Wooqer team dependence using the Wooqer Creator toolset. You can also use the Creator toolset to create new WorkApps on the go.
